## Index to Notices in the *Ohio Repository*

The following is an alphabetical listing, by surname, of notices that appeared in the Canton, Ohio, newspaper, *The Repository* between 1876-1880. The index covers marriage, death, divorce and administration notices. There are also a few guardianships included. It was compiled by library staff and volunteers in the hope that the book would be a useful tool to genealogists, as well as other researchers.

To use this index, simply find the name of the person whose notice you wish to find. The entries will appear as follows:

**HAMILTON/W. W. (Mr.)\*/DEA/Mar 13 1874/3/4/\*William Wallace; Wayn**

The first column is the individual's SURNAME. The second gives the person's first name and (title) if one used. The type of record is shown in column three. The fourth column is the issue date of the *Repository*. The fifth and sixth tell the page and column number where the notice is located. Any additional information appears in the last column.

You may find one name with multiple listings showing different dates and locations in the paper. This indicates consecutive listings for that individual. I encourage you to view each for additional information.
